As the Founding Principal of the school, I am enthusiastic about this new challenge and looking forward to meeting all of the young people that will be in our care over the next few years. I am a British born qualified teacher, with a broad experience of education worldwide. I also have a range of other experiences, being a musician, children’s entertainer, research scientist and a project manager in IT projects for Ford and Ericsson in Europe and the USA. I have taught in and led schools as a Principal and Vice Principal in the UK, Sweden, India and the Philippines.

Education for me is about giving our young people more choices, so that they can choose their own direction towards the happiest life they can have. Being a school principal isn’t about making people happy but about making happy people. For me a truly great school is one that is full of joy. We are all looking forward to a great deal of laughter and learning.

Welcome to Velammal Global School.
Warmest regards,
Mr Carl Piaf BSc MSc PGCE
Founding Principal
Velammal Global School, Chennai
**MUSICAL PRODIGY**

REBECCA SHEILA DOSS has been recognised by Record Setter – the Book of World Records in the US and the World Record Association in Hong Kong for passing the grade eight practical exam on the electronic keyboard at the youngest age of 11 by a girl. “My father motivated me and I started playing keyboard when I was three years old,” she recollects.

I started playing keyboard when I was a girl. “My father motivated me and I started playing keyboard at the youngest age of 11 by passing high scores in the subsequent practical exams and completing grade three in theory, Rebecca appeared for grade eight – the highest exam in electronic keyboard in India in December last year and got through with 73 percent.

Velammal CBSE School spread across the state has all the ingredients make schoolgoing fun enjoyable for the child.

The curriculum provides a broad educational programme, which extends learning beyond academics to the ethical, physical, creative and emotional development of the child.

The teachers in the lower classes are patience personified. Emphasis is laid on communication skills, developing motor skills and discipline that helps shape their character. The student centric curriculum and scientifically designed modules adopted here ensures that every student is benefited.

Together, children and teachers reflect on the meaning of each activity and explore it thoroughly; in doing so, every child finds the learning experiential and relevant. Teachers attempt to understand the social and cultural background to which the children belong. They take cues of their emotional, cognitive and social needs, to provide for them.

Orientation programmes and periodic parent-teacher meetings are conducted to help parents understand the approach and values of the course planned.

**OLYMPIAD BEST PERFORMERS**

1. Sivakumar (Class VII, VA Wing) National 1st
2. S. Rajesh (Class VII, VA Wing) National 1st

The exhibition was open for 10 days.

**AWARD WINNING PROJECTS**

**The Tech Whiz**

S. Arjun whose school bus locator app has won him the MIT App Inventor award.

A 14-year-old boy in Chennai has developed a mobile application that will help women in distress. An SOS mode in the app, i-Safe, when activated, repeatedly sends SMS alerts giving location details to friends and family members whose numbers have been pre-set.

S. Arjun is a seventh grader in Velammal Vidhyashram, Surapet. He is now working on adding a functionality to rope in the local community so that during a distress call, people nearby are automatically alerted to reach out to the person in danger, without having to wait for the police.

The teen had developed an app called Ez School Bus Locator the previous year, which won the first place in an app contest organized by the Massachusetts Institute of Technology. Winner of the MIT App Inventor contest in the K-8 division, Arjun’s app was considered “one of the most creative and well thought out app of any age group.”

This app for Android phones helps parents track the location of their children’s school bus, and also calculate how much time the vehicle will take to reach the destination. Even those with basic phones can use it by SMSing.

**GOLD MEDALIST**

Easwar Srinivasan won Gold Medal in International Math Olympiad, National Science Olympiad, NSO. Silver zone Olypiads-IOS International Olympiad of Science, IOM International Olympiad of Math, IOEL International Olympiad of English Language. He has attended Finals in National Level in National Astronomy Olympiad.

JUNE 2014
The Source and resource of Knowledge

Velammal Matriculation School aims to provide a life-changing experience for its students in a collaborative environment that is ideal to grow and flourish.

Today, Velammal Matriculation School stands tall as a symbol of quality learning beyond compare. It has embarked upon a new approach in educating children with the firm belief, that rote-learning system does not address the needs of the highly aspiring student community. The desire to shape children as successful individuals with a positive frame of mind and attitude in this highly competitive environment has been the driving force that sets Velammal Matriculation School in its course. Students are offered unique curriculum combining challenging, age-specific programmes and enriching experiences with academic rigor and creative opportunities.

Following the new age ICT programme exponents Velammal helps the students gain experience of testing, mailing, word processing, spreadsheets, graphics software, databases, simulations, animations and multimedia presentations.

Velammal aims to deliver a programme that is futuristic, interactive and highly practical. It helps to cultivate creative skills of students while giving shape to the theoretical expressions. The students participate and practice the theory taught in separate and full-fledged labs for real time experience. To kindle the scientific temper, students are formed in groups and are guided by their facilitators right from conceiving an idea, planning the exhibits and execution of the work. Prestigious projects executed by the students are sent to several competitions held at state and national level. Talented students of IIT foundation are trained and encouraged to participate in Mathematics and Science Olympiad and other renowned competitions.

The combined efforts for calibrated growth.

The integrated coaching programme is offered for both day and residential school students in the group. This well-defined programme implemented in a stress-free environment enables the students develop a conceptual thought process to solve the complex problems easily. Every day in the academic schedule extra hours are allocated for mathematics and physical sciences in addition to the regular classes. Periodical examinations are conducted to test the grasping levels of the students. The assessment of the progress made by the individual student is done scientifically and recorded. The senior students opting for this competitive course are made to participate in seminars, where eminent career consultants explain them various career options available to pursue after the XII grade.

1st STATE LEVEL INTER-SCHOOL TENNIS TOURNAMENT

1st State Level Inter-school Tennis Tournament was organized by Velammal Vidhyashram. It was a 3 days tournament held in the month of Aug, 2013. 250 players from 30 schools participated in two categories - under 12 boys and girls and under 14 boys and girls. Velammal Vidhyashram proudly won the Team Overall Championship.

An assertive present for a perfect future.

Velammal has the largest pool of experienced teaching fraternity in the state with highest success rate in IIT-JEE, AIEEE and Medical competitive examinations. They successfully implement IIT foundation programme to give a head start for the students. Over the years, Velammal has observed that most of the talented students following different syllabi lack in logical and analytical skills in solving the problems in competitive exams. It has endeavoured to set it right with its unique 7-years integrated coaching programme.

The yearlong programme of Integrated Foundation Programme is well planned and implemented by experienced faculty in phases. The process of learning includes periodic examinations, presentations, discussions, case studies, investigations, problem solving, project works, and other interactive activities. The students who follow this multifaceted course with full sincerity have brighter chances of to join IITs, NITs, BITS and reputed Medical and Engineering institutions in the state and country.

STATE LEVEL SCIENCE PROJECT EXPO – 2013

Students of VA Wing Boopesh, Shankaranarayanan, Poornima won a cash prize of Rs. 10,000/- for the projects “Eco-friendly house and hybrid car” in State Level Science Project Expo – 2013, held at SRK Engineering College in the month of Jan, 2013 sponsored by SRK Engineering College and Times of India.

Eco-friendly House: The highlight of the project is the use of plastic cement in the construction of eco-friendly houses.

This plastic cement is a combination of finely ground plastic with sand and cement in the proportion 2:1:3. In the process, the non-degradable plastic is used up in the construction which makes the building water resistant, and adds strength.

Hybrid Car: The inmates of the house use an Intelligent Hybrid Car, powered by two sources of energy, viz., solar and bio-gas. The car is designed to have two batteries – a running one and a standby one.

1st STATE LEVEL BASKETBALL TOURNAMENT

The Tournament took place in Velammal Vidhyashram, Surapet in the month of October 2013. 350 students from 30 schools of age category under 13 for boys and under 14 for girls participated in the tournament. The winners were Velammal Vidhyashram boys. Velammal Vidhyashram girls took the II position.

Velammal Engineering College

AICTE | Affiliated to Anna University | NAAC | NBA | ISO

The first link in the chain.

Velammal Engineering College has emerged as the Numero Uno Technical Institution in the region open for the talented aspirants, who are ready to join the league of successful Velammalians.

Communication goes hi-tech.

Velammal has a very professionally managed department of Electronics and Communication led by a team of highly qualified teachers who in their own right have contributed to the development in this dynamic field. With an intention to provide in-depth knowledge in every specific area, creative projects are assigned to the students. The students have benefited from live projects and assignments. Senior faculty members are always present to guide the students in their Electronics Lab, Digital & Analog Integrated Circuit Lab and Communication Lab, Microprocessor Lab, Networks Lab, VLSI Design Lab, DSP Lab, Advanced Electronics Lab and System Design Lab and also in their research and presentations.

Mentoring for Placement Success

Right from the first batch, Velammal has one of the best placements records in the region. Every year a large contingent of students are gaining entry into renowned organisations on the completion of the course. Today, Velammalians are considered as the best breed for their quality performance in these companies. The list of the companies coming for the placements is growing by the day.

Pioneering Success

Year after Year

154 University Ranks &
6 Gold Medals

Our Alumni-
Our Pillar of
Strength.

Velammal ensures that the latent skills of every student are developed to the full. Students are encouraged to form informal groups and clubs based on their areas of interest, to share information and exchange ideas. Students of group are involved in organizing annual meets, which offer wide scope of opportunities to develop closer interaction with other colleges. They operate as our pillar of strength and mentor the their juniors in academics and in preparation for placements.

The Joy of Learning Begins
